PROFILE

Computer Science undergraduate (Class of 2028) with a strong foundation in **data structures, algorithms, object-oriented programming, and software engineering**. Hands-on experience building and debugging software using **Java, Python, SQL, and SpringBoot**. Experienced with **Git, REST APIs, Docker, testing, and CI/CD concepts**, with an emphasis on structured problem solving, writing reliable software, and understanding user requirements. Strong collaborator with experience working across teams, communicating technical solutions, and learning new technologies quickly.

EDUCATION

Degree/Certificate	Institute	Score	Year
B.Tech. CSE	Manipal Institute of Technology, Bengaluru	8.57 CGPA	Aug 2024 - Exp. May 2028
Class XII (CBSE)	SNBP International School, Pune	87%	Jun 2022 - Apr 2024
Class X (ICSE)	Blue Ridge Public School, Pune	96%	Apr 2013 - Mar 2022

EXPERIENCE

- Software Developer Intern**, mPHATEK Systems May 2026 - Aug 2026
 - Collaborated with developers and stakeholders to translate **user and product requirements** into software solutions for an AI-powered recruitment platform using **Python and Next.js**.
 - Developed and supported application workflows involving **data processing, validation, and integration**, identifying defects through systematic debugging and improving software reliability.
 - Used **Git-based development workflows** and gained hands-on experience with **Docker and CI/CD concepts** to support consistent development and software delivery.
 - Investigated application issues, analyzed root causes, and communicated technical findings and proposed solutions with team members to resolve problems and meet project requirements.

PROJECTS

- KINETICAI** Jan 2026 - Mar 2026
Python, SQL, Git
 - Built a **Python-based data analysis application** to process and query structured recruitment datasets, implementing workflows for efficient data retrieval and analysis.
 - Designed data processing and validation workflows to transform **user requirements into reliable technical solutions**, generating structured reports and actionable insights.
 - Applied **testing, debugging, documentation, and version control** throughout development while using Git to manage changes and maintain a structured development workflow.

SKILLS

Programming:	Java, Python, C, SQL, JavaScript
CS Fundamentals:	Data Structures, Algorithms, OOP, DBMS, Operating Systems
Software Development:	REST APIs, JDBC, Git, Spring JPA
Testing & Engineering:	Software Testing, Debugging, Requirement Analysis, Documentation
DevOps & Cloud:	Docker, CI/CD Pipelines, AWS, Vercel
Data:	Data Analysis, SQL, Data Validation, Data Visualization
Professional:	Problem Solving, Communication, Teamwork, Leadership, Stakeholder Collaboration

COURSEWORK

Data Structures & Algorithms	• Object Oriented Programming	• Database Management Systems	•
Operating Systems	• Computer Networks	• Software Engineering	

CERTIFICATIONS

- Fundamentals of Java Programming** | [Verify Credential](#)
- Programming for Everybody (Getting Started with Python)** | [Verify Credential](#)
- Introduction to Generative AI** | [Verify Credential](#)

LEADERSHIP & CO-CURRICULAR ACTIVITIES

- Sponsorship Head**, Falak 2025 Aug 2025 - Oct 2025
 - Led stakeholder outreach and negotiations with multiple organizations, maintained structured communication and records, and secured sponsorships worth **INR 7.5 Lakhs**.
- Vice Fest Head**, TechSolstice 2026 2026
 - Led cross-functional student teams, coordinated multiple technical events, managed competing priorities, and resolved operational issues through structured planning and communication.
