PROFILE

Computer Science undergraduate with hands on experience in software development, backend systems, containerization, and AI powered applications. Experienced in building and debugging applications, working with Docker, Git, and CI/CD concepts, and collaborating with developers and stakeholders to deliver reliable solutions. Strong foundation in data structures, algorithms, databases, and object-oriented programming, with a growing focus on cloud technologies, DevOps, and scalable software systems.

EDUCATION

Degree/Certificate	Institute	Score	Year
B.Tech. CSE	Manipal Institute of Technology, Bengaluru	8.57 CGPA	Aug 2024 - Exp. May 2028
Class XII (CBSE)	SNBP International School, Pune	87%	Jun 2022 - Apr 2024
Class X (ICSE)	Blue Ridge Public School, Pune	96%	Apr 2013 - Mar 2022

EXPERIENCE

- Software Developer Intern**, mPHATEK Systems May 2026 - Aug 2026
 - Collaborated with developers and stakeholders to build and enhance an AI-powered recruitment platform using **Python**, **FastAPI**, **Next.js**.
 - Developed and integrated application features by translating functional requirements into maintainable software components and backend workflows.
 - Implemented **Docker-based containerization** for application components, gaining hands-on experience with containerized development, environment configuration, and reproducible application setups.
 - Worked with **Git-based development workflows** and CI/CD concepts to support structured code integration, testing, and reliable software delivery.
 - Investigated application issues and performed structured **testing, debugging, and troubleshooting** to improve application reliability and resolve development issues.

PROJECTS

- KINETICAI** Jan 2026 - Mar 2026
Python, Streamlit, SQL, Git
 - Developed a data-driven application using **Python and Streamlit** to process, analyze, and visualize structured recruitment data.
 - Designed application workflows for data retrieval, validation, analysis, and reporting while translating user requirements into practical technical solutions.
 - Applied structured testing, debugging, documentation, and **Git version control** practices to improve application reliability and maintainability.

SKILLS

Programming:	Java, Python, SQL, C
Software Development:	OOP, Data Structures, Algorithms, REST APIs, Git
DevOps:	Docker, CI/CD Pipelines, Containerization, Version Control
Cloud & Tools:	AWS, Vercel, GitHub
Frameworks:	FastAPI, Next.js, Streamlit
Engineering:	Software Testing, Debugging, Requirement Analysis, Documentation

COURSEWORK

Data Structures & Algorithms	• Database Management Systems	• Operating Systems	•
Computer Networks	• Object Oriented Programming	• Software Engineering	

CERTIFICATIONS

- Fundamentals of Java Programming** | [Verify Credential](#)
- Programming for Everybody (Getting Started with Python)** | [Verify Credential](#)
- Introduction to Generative AI** | [Verify Credential](#)

LEADERSHIP & CO-CURRICULAR ACTIVITIES

- Sponsorship Head**, Falak 2025 Aug 2025 - Oct 2025
 - Coordinated with multiple stakeholders, maintained structured communication and records, negotiated sponsorship opportunities, and successfully secured sponsorships worth **INR 7.5 Lakhs**.
- Vice Fest Head**, TechSolstice 2026 2026
 - Led cross-functional student teams, coordinated technical events, managed competing priorities, and ensured timely execution through structured planning, communication, and issue resolution.
